Your Peace of Mind Warranty

We are proud of our dental services and what they do for our patients. Our goal is to not only correct your dental problems, but have the work we do last for many years so that you save time and avoid unnecessary expenses.

The long term success of your treatment is dependent on how well you care for your teeth, your continued home care, consistent regular professional examinations, cleanings and fluoride treatments.

It is also dependent on your adherence to our professional recommendations on your diet, products we recommend you use and the frequency of your professional continuing care visits.

The long term success of your dental treatment is dependent on how well you care for your teeth, eating a sensible diet and adhering to the schedule we set for you for the frequency of your professional examinations, cleanings and fluoride treatments.

The products we recommend for you for you and the frequency of professional continuing care visits depends on your individual situation.

With these thoughts in mind, we are pleased to offer the following limited dental warranty:

All Porcelain/Ceramic Crowns, Bridges, Inlays, Onlays, Veneers

If these porcelain/ceramic restorations fracture with normal use during a period of five (5) full years from the date of their initial placement, we will replace or repair these (at our discretion) at no additional charge. If they cannot be replaced for any reason, we will credit half of the fee toward another treatment option to correct that area.

Teeth Whitening

If our teeth whitening services are unsatisfactory immediately following whitening services, we will retreat at no additional charge at the same visit.

Dental Sealants

If our dental sealants are in need of repair with normal use during a period of two (2) years from the date of initial placement, we will replace or repair them at no additional charge.

Composite (White) Fillings or Bonding

If our composite fillings or bonding fracture with normal use during a period of two (2) years from the date of initial placement, we will replace or repair them at no additional charge.

Dental Implants

If our implants fracture or fail within a period of two (2) years following the initial surgical placement, we will replace or repair any fractured or failing implant at no charge or refund your fee at our discretion. (The good news is that the vast majority of problems that occur will happen within the first year of treatment.) Exception: Diabetic condition that goes from controlled to uncontrolled can cause serious damage to all oral structures including the supporting bone around implants.

The good news: We don't perform dental implant therapy for uncontrolled diabetics. So as long as a diabetic is well controlled consistently, there is usually no problem with dental implant therapy. More good news: Our long term success rate of 10 years is 90+%.

Conditions

To keep this warranty valid, you must maintain your account in good standing.

This warranty does not include services not mentioned above, including gum line desensitization, root canal therapy & night guards; nor does it cover damage to teeth or dental prosthesis caused by accidents, trauma, neglect or improper use (e.g., grinding, clenching, chewing ice or biting non-food items).
